

Club Counters Explained

Club counters are time trials that are nominated to count towards several of the club's TT competitions. Events in our and nearby districts are selected across 10, 25 and 50 mile races. The following guide explains the various competitions.

Seasonal 25m TTs

Three 25m races are chosen as a Spring, Summer and Autumn club TT. The fastest FPCC rider and the most improved, compared to current LTS, receive a medal.

Johnson-Hussey Cup

This is awarded to the fastest rider as an average across 6 events in nominated races; two each over 10, 25 and 50 miles. It is an average of average speeds in each event.

Gordon Stewart Bowl

This is awarded to the rider who is most improved compared to their LTS across 25, 50 and 100 mile TTs. The 25 and 50 events are nominated but any 100 TT counts. It is the season's average of average speeds compared to that of LTS. Note that it is LTS from any event not limited to previous events.

Club Counters 2019					10's =	15
					25's =	20
					50's =	7
